Subject: Resident calls on Mr. Greer NYPD responds

I was advised by the front desk that NYPD cars were parked with lights on speaking to a lady. I went to inquire with Officer Walker and Officer Mesa and spoke to one of the officers, officer Durso from the 1st pct. He said a 911 call was placed for a man harassing the lady at Gristedes supermarket at West Thames. She explained to the officers that Greer has been saying things to her in the at Battery Park City and in his blog in the past. When they met at the supermarket she tried to introduce herself as the lady he has been writing about and he starts to yell and take his camera phone out to videotape her. At that point she walked away from him and called 911. At this time Mr. Greer came to the area and started to explain to the officers his side of the story, yelling and screaming as usual. The officers heard his side of the story and when he was done he went on his way. Both the officers and myself asked if she needed an escort back to her apt at the Visionarie but she refused and thanked us all. Mr. Greer came back with a witness (the cashier at Gristedes) and told him to explain to us how the lady was crazy. He came up to NYPD and us and said that he was the one who was crazy. At this point he tried to videotape all of us and we decided to disperse. So just giving you a heads up if he starts to complain again. Sorry never got the lady's name for the NYPD officers were involved and Greer was screaming and yelling, but most likely her name will be in his blog in the future. Let me know if you need anything else.
